

## **SAMI JAROUDI**

### **EXPERIENCE:**

Sami Jaroudi has over 15+ years of experience in Arbitration, Mediation, and Project Controls Management, Change Management, Digital Transformation, and Work Processes applications with major industrial capital projects for both contractors, government agencies, and in the private sector.

#### **2018 to Present JGroup Mediation, LLC**

#### **ALTERNATIVE DISPUTE RESOLUTION (ADR) & NEUTRAL EXPERIENCE**

- **FINRA Dispute Resolution Services:** Served as an appointed **FINRA Neutral** (Mediator/Arbitrator) for the largest securities dispute resolution forum in the U.S. Facilitated the resolution of complex business and employment disputes between investors, securities firms, and individual brokers, utilizing both formal, binding arbitration and non-binding mediation processes.
- **Better Business Bureau (BBB) Dispute Resolution:** Engaged in conflict resolution processes (Mediation and Arbitration) for consumer-business marketplace disputes, including automotive warranty, lemon law, and class action matters. Applied impartial, user-friendly processes to resolve disputes outside of court.
- **Local Court Dispute Resolution:** Provided mediation and/or arbitration services as an appointed neutral through local court systems' Dispute Resolution Services (DRS). Specialized in facilitating agreements for various case types, including civil, small claims, and/or family law matters

#### **2020 to 2024 Flint Hills Resources/KOCH, Houston, Texas.**

##### **Project Services Systems Manager:**

Responsible for and leading the Project Services systems and tools capability to transform the business into the next generation applications and work processes. Developed vision, strategy, and implementation for the department and lead projects from ideation, planning, execution, and closeout.

**2014 to 2019 Jacobs Engineering Group**, Houston, Texas.

**Manager - Project Controls - Systems & Processes:**

Supporting role within the Global Project Controls leadership organization that encompasses maintaining the company's essential Project Controls commercial tools, in addition to new implementation and deployment of cost management systems to projects. Provide guidance and enhancements on Project Controls processes and procedures.

**2007 to 2013 ARES Corporation**, Houston, Texas.

**Manager - Project Controls & Systems/Client Manager:**

Responsibilities include deployment, implementation, and maintenance of project controls systems utilizing appropriate cost and scheduling software applications for projects and key contracts. Provide training on the cost systems to all project control personnel. Provide hands-on support for all aspects of the Project Controls area. Travel to client sites and audit the project control processes and provide solutions (software, processes, and procedures).
